

Note

The Contributor

The **Definition of Boundedness** was originally proposed by Huo Jian Hua(霍建華). Huo Jian Hua notably appeared on television in the cosplay of The Honorable Grandmaster Ji-Gong, during which the contract for the use and guarantee of the Definition of Boundedness was formally established. This is hereby declared for clarity and acknowledgment.

〈有界的定義〉當初是由霍建華所提出，霍建華在喬扮濟公師尊著僧服同時在電視廣播上訂霍建華的〈有界的定義〉使用契約及保證。特此申明。

Advisors

Students of The Honorable Grandmaster Ji-Gong and The Lady Grandmaster Yue-Hui:

Elder Dao Master Wu and Elder Dao Master Ren 吳靜宇老前人及任秀蓮老前人.

Advisory Professors (California State Polytechnic University, Pomona):

Emeritus Mathematics Professor James Richard McKinney (1973-2008).

Quotes on this Professor:

- Huo Jian Hua's Definition of Boundedness "is viable because I agree", the professor lectured in one of his formal class sessions, "Here's the Master's definition: x is bounded if and only if x belongs to y ".
- "Are you disagreeing with me?", the professor responded to his challenging students.

Emeritus Mathematics Professor Saddharma Donald Hook (1969-1998).

Quotes on this Professor:

- In his office, the professor said to me, the writer of Using Huo Jian Hua's Definition of Boundedness (使用霍建華〈有界的定義〉), "You went to class for the Master's definition. I certify it."
- "On Note, put me at the end", the professor instructed, "so they know."
- "Tell them: I won't stop reincarnate till everybody takes the extinguishment!"
